had held on all the last moment, were lost.

"The advance which is being pressing on the front of the retreat, the enemy has crossed the Sobal, schany-Train-News-Gravel line."

"Army group of Prince Leopold. The resistance of the enemy was broken on the entire front but pursuit in the Kerzsch district above Kerschbach and Schenke. The district northwest of Kerschbach has been reached. Further south in an engagement with enemy rear guards, the prisoners and some machine guns fell into our hands."

"Army of Field Marshal von Mackensen. Advanced divisions northwest and east of Logachin were withdrawn behind the Orinich canal and the Javolska river before an encircling Russian attack. They carried two officers and 100 men, with their as prisoners."

"Southwestern theater of war. The situation is unchanged."

BELGIANS REPORT

ARTILLERY ENGAGEMENT

Paris, Sept. 24 (19:45 p. m.)—The following Belgian official was statement was given out here tonight:

"The activity of the enemy has manifested itself in a concentration of our forces to the south of Neupont and in the neighborhood of Diksmuide, where a struggle in which bombs and much firing were employed against the German works and batteries has also taken place."

"No infantry action is reported."

SEVERE ARTILLERY ENGAGEMENTS IN FRANCE

Paris, Sept. 24 (19:45 p. m.)—The following official statement was issued by the French war office tonight:

"The enemy today bombarded our trenches near the village and the castle of Boesinghe (Flanders)."

"In the same activity prevails on both sides on the part of the artillery. The fire of our heavy pieces caused the explosion of an important depot of ammunition near Thelus north of Arras. A few shells of large caliber have been fired on Arras."

"Between the Somme and the Oise, forward, Calais, Arras, and Valenciennes, we have shifted the enemy's positions and scattered his many points the line of intrusions all stations."

"On the front of the Aisne and in Champagne, a very violent and in general bombardment is required."

"Between the Meuse and the Moselle, at Nouard and Pannes, some German groups were hit by our fire. We also destroyed a brick house in the Remagne-Ville section."

"The campaigning has been rather serious in Lorraine, where we today destroyed some German organizations on the Remblais and in the Vosges, and also in the Vosges in the region of Limes and Hengelberg."

NO REVERIES REPORTED BY OFFICIAL AUSTRIA

Vienna, Sept. 24 (via London, 11:39 p. m.)—The following official communication was issued today:

"On the northern part of the front, there was no change yesterday, while in the Italian front, the situation was unchanged."

"Violent fighting took place in the district of Nova Alexina (Croatia) and on the lower Isonzo river. In the former sector the Russians employed attacking artillery and eleven times attacked our line. They were repulsed everywhere with heavy losses. Again."

OWNER, CARL JOURNAL

BIG STEEL MILLS ARE INVESTIGATED BY JOHN D., JR.

Son of Money Magnate Passes Through Grimiest and Hottest Part of Vast Hives of Human Industry.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
Pittsburgh, Sept. 24.—A description of the American steel industry, with its vast hives of human industry, today before the International Engineering congress by John D. Freeman of Pennsylvania, B. I., past president of the American Society of Mechanical Engineers.

"The time has not come," he said, "when the steel industry can be found in a state of complete collapse and in a condition of complete ruin. It is a great industry, and it is a great industry."

"The time has not come," he said, "when the steel industry can be found in a state of complete collapse and in a condition of complete ruin. It is a great industry, and it is a great industry."

CORN PRODUCTS COMPANY BOUGHT 22 REFINERIES

Investigation in Federal Court Brings Out Story of Gigantic Consolidation.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
New York, Sept. 24.—Testimony today in the Federal court brought out the story of the gigantic consolidation of the Corn Products Refining company, which today has bought 22 refineries, after it had absorbed them, was given today in the hearing here of the government's suit to dissolve the corporation as an alleged monopoly under the Sherman law. This was brought out while Frederick Y. Fisher, secretary and treasurer of the company, was on the stand.

Secretary Fisher also said that he examined many of the plants taken in by the corporation, and said that some were turned over without being given any depreciation value. He said that he found that many of the buildings deteriorated rapidly and became worthless. He told of the sale of various unused plants at a price below their value. Those plants were in various parts of the east and middle west. Some had not been operated for ten years before their sale between 1906 and 1911.

In all, Mr. Fisher testified, twenty-two plants were sold and eleven corporations dissolved since the formation of the Corn Products Refining company. Counsel for the company contended that the testimony proved the company never had closed or dismantled a mill that was in operation when purchased.

Robert H. Raley, shot and killed near Alamogordo.

(SPECIAL DISPATCH TO MORNING JOURNAL.)
El Paso, Tex., Sept. 24.—Robert H. Raley was shot and killed in front of the Colburn hotel at Oro Grande yesterday afternoon. William H. McNew was charged with the shooting. The bullet which resulted in the shooting is said to have started twenty years ago. His years ago Raley and McNew are said to have had trouble which ended in McNew being shot through the head, though the bullet did not penetrate the brain.

McNew is one of the best known cattlemen in eastern New Mexico. He was a rancher and mining developer. He is survived by a wife and three children.

McNew used a six-shooter and then telephoned to friends at Alamogordo that he had done the shooting.

ALASKA RACING DOGS BOUGHT FOR FRANCE

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
Nome, Alaska, Sept. 24.—The All-Alaska team of racing dogs, winners of the famous 112-mile All-Alaska sweepstakes race, was sold today to the French army. The dogs, who will take the dogs to France for use in Arctic service, are A. A. (Society) Alton, the noted racing dog, driver, will accompany the dogs to France.

Turks End Mission Work.

Washington, Sept. 24.—There is little hope of re-opening missionary schools and colleges in the interior of Turkey according to a dispatch today from Antioch. The missionaries who had been working in the interior of Turkey for many years, had been ordered to leave the country by the Turkish government.

NEW METHOD OF CURING DOPE VICTIMS FOUND

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
Philadelphia, Sept. 24.—A new method of treatment for persons addicted to the drug habit was outlined today by Dr. Thomas D. Crothers, of Hartford, Conn., in a paper read at the second day's session of the seventh annual meeting of the American Association of Clinic Research at the Hahnemann Medical college.

The treatment provides for a gradual withdrawal of the narcotic from the patient by an entirely new system, and a complete change of environment, surroundings and after care.

Dr. Crothers, who is the author of a number of text books on the effects of drugs, declared the drug habit is not curable. Most cases, he handled intelligently, (can be cured entirely), he said, and even in cases of utter degeneracy, temporary restorations at least can be effected. He blamed the prevalence of the drug habit largely upon physicians who make a practice of trying to cure the drug habit by withdrawing the patient to a substitute drug of some proprietary remedy and upon doctors who recommended the use of narcotics as a palliative for over-excitement.

Dr. Crothers' method of treatment is physical as well as medical. A large majority of physicians who use drugs habitually have been led to do so, he said, by over-excitement developed by great stress in their business or professional work. It is obvious, he maintained, that in such cases a change of environment is the first part of the cure. This is also true, he said, of other cases of drug habit where addiction to drugs has been caused by over-indulgence in various pleasures, and persons who have been profoundly depressed by some great trouble.

ITALIANS TAKE STRONG AUSTRIAN FORTIFICATION

Monte Coston Is Enveloped and Then Stormed by Forces of General Cadorna After Days of Hard Fighting.

(BY MORNING JOURNAL SPECIAL LEADER WIRE.)
Rome, Sept. 24 (via Paris, Sept. 23, 12:30 a. m.)—The following official communication received from main headquarters Italian army, under current date, was given out here tonight:

"On the plateau northwest of Arona, the strong position of Monte Coston was stormed by our troops. Our men, by a skillful enveloping movement, already had virtually isolated it. Enemy columns then tried to check the progress of our envelopment by violent attacks on the days of the 15th, 16th and 17th, which broke against the firm resistance of our troops."

"Yesterday the position fell into our possession. The Austrians, by dividing us in groups, sought in various ways to escape the envelopment. However, they left five officers and 135 men in our hands, besides great quantities of munitions, hand grenades, explosives and other material."

"On the Carso, in the evening of the 22nd, the enemy delivered an attack against Forno di Cavallo wood, recently captured by us. After an intense artillery action, he was obliged to abandon the attempt."

"An enemy aeroplane threw three bombs on Tolmezzo, causing neither death nor damage."

GERMANY CAN FINANCE WAR INDEFINITELY, SAYS TREASURER

(Continued From Page One.)
place of the matter at the beginning of the commission's work here.

Another banker, in a position to know, said today that Great Britain does not, at the present time, owe a penny for goods purchased in this country, but, on the contrary, has made several large advance payments on certain contracts. More than \$300,000,000 shipped here recently in gold and securities, it was said, had secured this account.

France, this banker said, owes a small bill here, as international bills go.

Having been told plainly by American financiers that the maximum loan would be a half billion dollars, the commission reshaped its plans somewhat and continued negotiations today among the newly outlined routes. So, interested are the details concerning the loan that no one feature, it was stated, could be considered without the others.

Sterling Gum 5¢

The 7-point gum

PEPPERMINT - IN RED WRAPPER

CINNAMON - IN BLUE WRAPPER

Members of the entire program were disposed of. It was thought doubtful that if a full agreement would be reached earlier than a week hence. Nevertheless, it was stated that negotiations were proceeding favorably.

Members of so-called protestant banking houses of New York conferred today with the commission and are believed to have signified that they would subscribe to the loan.

KAISER MUCH PLEASED WITH SUCCESS OF LOAN

Amsterdam, Sept. 24 (via London, 8:15 p. m.)—A dispatch from Berlin states that Emperor William has sent a telegram to Dr. Karl Helfferich, secretary of the imperial treasury, thanking him for the success of the loan. The emperor's message adds:

"The German nation, full of confidence in its own strength, has shown its enemies and the whole world that in the future it is unshakably united, as one man, is unshakable, and will continue to a glorious end, and will triumph upon us by eternal peace and make every necessary effort of blood for the security and liberty of the fatherland."

Forest Fire Extinguished

Grand Junction, Colo., Sept. 24.—Forest rangers today aided by a heavy rain which swept over Mesa county extinguished the forest fire which was burning on three sides of Grand Junction yesterday. Forest officer Walter Seaborn and a force of men worked all night extinguishing a square fire on the head waters of Kanab creek.
